

NEW SURESKIN[®]
I.V. Hydrocolloid Dressing

If seeing is believing. . .

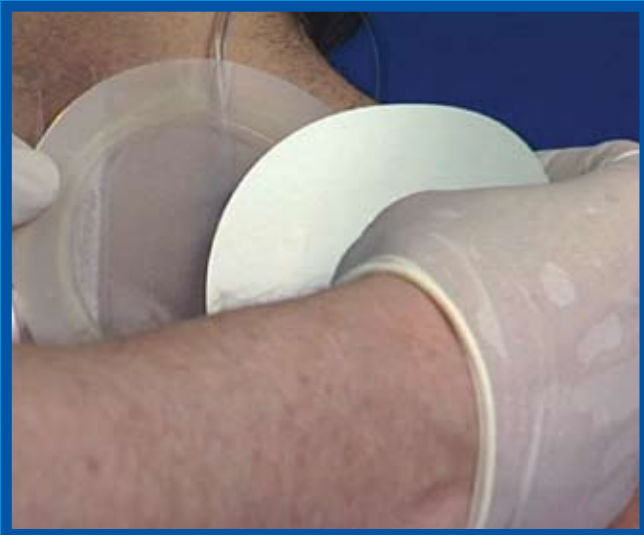

. . .then see for yourself!

NEW SURESKIN® I.V. Hydrocolloid Dressing

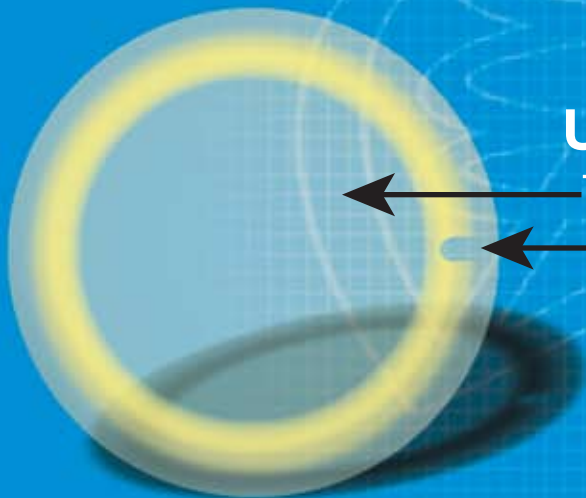

Unique application system

One step system simplifies application

Hydrocolloid adhesive

- Provides secure seal
- Allows for bathing and showering
- Helps protect against external contaminants
- Non-irritating to sensitive skin

Unique multi-dimensional design

- Thin inner surface allows visualization of insertion site
- Thicker outer border helps anchor catheter egress

Enhanced flexibility and conformability

Manages challenging anatomical locations

Better performance...

Better value...
